

I'm writing regarding LPFM stations that might be taking priority over FM stations which could force stations like KLOVE out of broadcasting. The KLOVE channel is such an asset to our community that I cannot imagine being without the encouraging message that they leave numerous people everyday. Other radio stations do not care about the community enough to send positive messages to its listeners constantly. Stations like KLOVE care about its listeners. They are family friendly and has something to offer to every age group out there. It would be tragic deprive our youngsters of such guidance and positivity. Please Reconsider your proposition and enact it in a way that we don't lose our daily encouragement and the youngsters their guidance. Thank You For Your Time.

B Isaac.
